PROFILE

18+ years of work experience with SAP BW & BW on HANA from consulting and internal positions. Furthermore, I have experience with SAP Enterprise Portal, SAP BPC, and SAP Disclosure Management. During many cross functional projects with various roles as test coordinator, BW developer, project member, project manager, architect, and scrum master I have gained professional knowledge with different technologies. Responsible for numerous updates/upgrades for SAP BW and SAP Disclosure Management and for analyzing, scoping, and designing BI solutions covering the end-to-end technical configuration. I am an open minded and trustworthy team player with analytical and quality focused mindset and with a passion for delivering robust solutions also covering data governance and GDPR.

TECHNOLOGY SUMMARY

SAP areas:	BW (certified 7.0), BW on HANA, BPC, Enterprise Portal, SAP Disclosure Management
SAP reporting appl. areas:	FI, CO, HR, SD, PS, CATS, Retail and CRM
Front-End:	BW-MT, Query Designer, BEx, Analysis for Office/EPM

RECENT PROJECTS

BW solutions maintenance, development & upgrade (Danish pension company, Copenhagen)

06.2020 | 12.2020

Maintenance of SAP BW solutions including upgrade activities from 7.0 to 7.5. Implementing functional changes before and after the upgrade. Migration of RSR authorizations to Analysis authorizations, migration of obsolete objects, functional postprocessing after the upgrade, system test and hypercare. Process chains and extractors optimizations and bug fixing. Setting up ODQ/ODP datasources.

Project implementing a new BW data foundation for collecting and down streaming data from the SAP CRM system and moving them into a MS-SQL Data Warehouse where business analysts, actuaries and data scientist will be able to analyze and improve business insights for the occupational insurance.

Technologies: CRM | BW | ODP | Theobald Software | SQL Data Warehouse | Authorizations

BW Developer & Scrum Master (Topdanmark, Copenhagen)

10.2008 | 05.2020

Developing and expanding the overall BW suite applications in Topdanmark in areas like FI, CO, HR and several custom solutions including the BW reporting within SAP Enterprise Portal, BPC, and SAP Disclosure Management. This included solutions design, customization, development, upgrades/updates as well as authorization and roles. Largely involved with Solvency II project and implementations of SAP BPC & SAP Disclosure Management. Scrum master for BW Team.

Technologies: BW | HANA | BPC | SAP Disclosure Management | SAP Enterprise Portal | BPS
BEx | WAD | AfO | EPM | IP | ADSO | Calc. Views | Composite Providers | Auth.
